Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. This action is responsive to communications: application, filed on 11/21/01.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

3. Claims 1-5 are rejected under 35 U.S.C. 102(e) as being anticipated by Puckett, US# 5,619,621.

As per claim 1, Puckett teaches “acquiring log information outputted when a program is executed to thereby read the acquired log information” (see col. 3, lines 1-32) “accepting a user designation condition indicative of log information which extracted” (see col. 9, lines 5-35) “extracting information from the log information based upon said accepted user designation condition, and for judging as to whether or not each of operations while the program is executed can satisfy an initial conditions . . . an error occurred . . .” (see col. 9, line 26-56 and col. 10, lines 25-45).

As per claim 2, Puckett teaches “comparing the analysis result of the log information with an improvement rule which indicate . . . error happens to occur . . . analysis result of said log information” (see col.2, lines 50-65 and col. 3, lines 1-13).

Art Unit: 2163

As per claim 3, Puckett teaches "said program is corrected in accordance with said provided improving measure and thus . . . a warning notice capable of solving said shortened/excessive operation . . ." (see col. 4, lines 11-40).

As per claim 4, this claim is rejected on grounds corresponding to the arguments given above for rejected claims 1-2 and are similarly rejected.

Art Unit: 2163

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US# 2002/0091971 A1.
